

Agenda "Chemical Photocatalysis"

1st Seminar Day: 20./21. May 2010 in Regensburg

Thursday, May 20 th	topic	who is speaking?	where?
14:00	opening	Prof. Bernhard Dick	H46
	Lecture: Absorption by molecules: principles and application in transient absorption spectroscopy	Prof. Bernhard Dick	H46
	coffee break - meet the speaker	all	H46
17:00	Talk: Femtosecond broadband spectroscopy of plant cryptochrome indicates sub-picosecond protein → FAD electron transfer	Dr. J. Luis Pérez Lustres (Universidade de Santiago de Compostela)	H46
19:00	follow-up meeting & dinner	guests & all members of GRK1626	Kneitinger Keller - Biergarten

Agenda "Chemical Photocatalysis"

1st Seminar Day: 20./21. May 2010 in Regensburg

Friday, May 21 st	topic	who is speaking?	where?
09:00	Lecture: Hints and suggestions to the interplay between ultrafast spectroscopist and preparative photocatalytic chemist	Prof. Eberhard Riedle	H46
11:00	coffee break - remarks on 2-D transient absorption spectroscopy with a streak camera	Roger Kutta (AK Dick)	H46
12:00	Talk: Conception of mentoring program - GRK1626 meets GRK 1570	Christiane Kapp	"Senatssaal" / administration department 2 nd floor
